Everything is from around here. All of our produce, fruit, meats, cheese, olive oil and milk comes from Texas sources; much of it comes from the Austin area. Our seafood is caught in the Gulf or the freshwater rivers of Central Texas, or is raised aquaponically. Invasive feral hogs and exotic deer are trapped in the wild throughout the Hill Country. We use freshly rendered lard (non-hydrogenated) for our flour tortillas. Many of our dry goods are locally sourced, and most are organic. Please ask any staff member for more details.
